

Environment, Health & Safety Policy

Emirates Techno Casting FZE is committed to manufacturing and distributing its products and providing services in a safe and environmentally responsible manner. Consistent with its values and culture, and its obligations to and expectations of its business stakeholders, it is our policy to evidence its commitment to environment, health & safety through the following practices:

- We will meet or exceed the national, provincial, state, local and / or other EHS regulatory requirements applicable to our organization.
- We will maintain EHS management systems designed to proactively mitigate risk to people and the environment, preventing pollution and injury & ill health to its employees, contractors, customers & communities in which it operate.
- We will engage in systematic programs of continual improvement of EHS systems and processes. We will conduct regular EHS audits and will implement processes to pursue resulting improvement or corrective actions consistent with this policy.
- We will promote a culture of EHS accountability and employee engagement.
- We will explore opportunities to partner with our business and community stakeholders to promote mutually beneficial EHS and sustainability programs & objectives.
- We will pursue responsible EHS objectives in areas such as reuse, recycling, energy conservation, landfill free operations and health & safety, relevant to our operations' significant risks and impacts, and consistent with this policy.
- We will review our EHS Policy periodically so that it remains relevant and appropriate to the nature and scale of business risks and impacts.

Version: 04

Effective: May 14, 2019
